

Immediate Care Training

Practical emergency care education | Ireland & the UK

Anaphylaxis Management

Live Webinar for Healthcare Professionals

Course fee €50 per person	Duration Approximately 1 hour 45 minutes
Delivery Live, instructor-led online webinar	Certification ICT Certificate of Attendance and NMBI CPD points

Course overview

This live, instructor-led webinar provides healthcare professionals with an opportunity to review the recognition, assessment and management of anaphylaxis. The session includes clinical discussion and time for questions.

Topics covered

- Recognition and assessment of anaphylaxis
- Immediate management and escalation of care
- Adrenaline administration and available delivery devices
- Clinical decision-making and case-based discussion

Who should attend?

Healthcare professionals who may encounter anaphylaxis in their clinical practice, including nurses, doctors, pharmacists, dentists, midwives, paramedics and other clinical staff.

Certificate and CPD

Participants receive an Immediate Care Training Certificate of Attendance and NMBI CPD points. The specific CPD point allocation will be confirmed in the course information provided to participants.

Important distinction

This is a live online educational webinar. It does not include the hands-on skills practice provided in our separate face-to-face Anaphylaxis Management course.
