

Immediate Care Training

Practical emergency care education · Ireland & the UK

BLS & Anaphylaxis Management

Combined classroom training for healthcare professionals

Fee	€195 per person for both courses
Time	10:00 am–approximately 4:30 pm
Venue	ALSAA Sports Complex, near Dublin Airport
Parking	Free parking available

One day, two essential emergency skills

Complete American Heart Association (AHA) BLS Provider training and practical Anaphylaxis Management training on the same day. Instructor-led teaching combines hands-on practice, clinical scenarios, discussion and feedback. BLS runs first, followed by Anaphylaxis Management.

Who should attend?

Healthcare professionals and students seeking BLS certification or renewal alongside practical anaphylaxis training, including nurses, doctors, dentists and allied healthcare professionals.

BLS Provider training

- Recognising cardiac arrest and activating emergency help
- High-quality adult, child and infant CPR; one-rescuer and two-rescuer skills
- Safe AED use, rescue breathing and bag-mask ventilation
- Choking management, teamwork and communication

Anaphylaxis Management training

- Recognition of anaphylaxis and structured assessment
- Emergency help, initial management and reassessment
- Appropriate adrenaline administration and practical use of training devices
- Clinical scenarios, treatment decisions and instructor feedback

Assessment, certification and CPD

BLS: Successful completion of the knowledge and practical skills assessments leads to an official American Heart Association BLS Provider eCard, valid for two years.

Anaphylaxis Management: Immediate Care Training Certificate of Attendance.

Professional development: The combined training programme provides 4 NMBI CPD points.

Dates and booking

The combined course is available on selected dates. Please check the Immediate Care Training website for current dates, availability and booking arrangements.
