IMMEDIATE CARE TRAINING

AHA HeartCode BLS Online Learning Only

Course information | €95 | Self-directed online learning

Course overview

AHA HeartCode BLS is the American Heart Association's self-paced online learning component of its blended Basic Life Support (BLS) Provider pathway. This option is for learners who want to complete the online component separately before arranging an approved, instructor-led practical skills session.

What the €95 fee includes

- Access to the AHA HeartCode BLS online learning component.
- Self-directed learning and online knowledge-based assessment.
- An online completion certificate following successful completion of the online component.

Flexible learning

Study at your own pace, pause and return to the learning as permitted by the AHA platform. Completion time varies according to experience and progress. Access and availability of learning materials are subject to the applicable AHA licence terms.

Core learning topics

- Recognition of cardiac arrest and activation of the emergency response system.
- High-quality CPR for adults, children and infants.
- AED use, ventilation, choking management and team-based resuscitation principles.

Who should choose this option?

Healthcare professionals and healthcare students who want to purchase the online learning separately, including those who have already arranged a suitable practical skills session.

Important: this is not the complete BLS Provider course

The €95 fee does not include hands-on skills training, practical assessment or an AHA BLS Provider eCard. An online completion certificate is not the BLS Provider eCard.

Completing your BLS certification

What happens after online learning?

After successfully completing HeartCode BLS online, retain your online completion certificate. You must then successfully complete an approved, instructor-led BLS practical skills session and assessment to qualify for the **AHA BLS Provider eCard, valid for two years**. Confirm that your chosen practical provider accepts your online completion certificate and has an appropriate session available.

Practical skills with Immediate Care Training

Our practical-only session costs **€145** and lasts approximately four hours. The online component must be completed before attending, and the completion certificate must be presented. Confirm the date, time and venue when booking.

Other HeartCode BLS booking options

- **Practical Skills Session Only – €145:** for learners who have already completed the AHA online component.
- **Complete Blended Learning – €195:** includes the AHA online licence plus practical skills training and assessment; **€45 less** than buying the €95 and €145 components separately.
- **HeartCode BLS + Anaphylaxis – €245:** includes the blended BLS pathway and separate face-to-face Anaphylaxis Management training.

CPD recognition (NMBI)

For professional CPD records, **1 CPD point per hour of relevant learning** may be recorded, using the actual learning time completed and subject to your employer's or professional body's requirements. This statement does **not** mean the course is formally accredited by NMBI.
